The quiet mechanic, Carter Chambers, has been married for forty-five years to his beloved wife Virginia and has three children. Of the two sons, one is a lawyer and the other an engineer; the daughter is a violinist. The caustic and bitter billionaire Edward Cole owns many hospitals, has been through his fair share of divorces and has one missing daughter. Following Edward's work ethics, rather than give him a private room during his stay, his hospital puts him in the same room as Carter. As time goes on the two men become close and when Edward finds Carter's 'bucket list' in the garbage, listing all he wanted to do before dying, he includes his own items on the list and invites Carter to a journey of friendship, discovery and redemption.

Windwalker is a 1981 western adventure film, based on a novel by Blaine M. Yorgason, starring Trevor Howard and Nick Ramus.

An ancient Indian warrior who has reached the end of his life is brought back from his 'death' to save his family from a raiding party of enemy Indians in this unique story of 'Indians without a single cowboy.'
