

Ichishkin Sinwit Yakama Nation Language Classes

Instructor:

Kussamwhy, Levina Wilkins

Will start with intermediate level of lessons and work on other interest of word lists as we progress. Added into the language class will be some noted history of the how and where the language comes from so there is some valuable information to the beginning of language and the differences in dialects. Please make a commitment to attend each class, as they will build your language skills in incremental steps. There will be no repeating of lessons in the interest of all attendees. You will be able to pick up missed lessons to make up work to keep up with the lessons for the next class. We have allowed the maximum amount of attendees to be 20. Those that are interested need to call and make sure your name is added to the list. If we are full your name will be placed on the stand-by list.

If interested please call (509) 865-5121, ext. 4804 and your name will be put on the list to attend and if full will be put on stand-by list. All who attend will be asked to do an entrance survey and exit survey. This will allow the program to understand your knowledge from beginning to end of the class. Your cooperation is greatly appreciated and truly is a great tool to help us to continue to develop curriculums to teach the Sahaptin Language.
